[Water Loss 2022](#)

Prague, Czech Republic
19 - 22 June 2022.

On February 17, 2022, SHUKALB organized a virtual meeting on the Position Paper “Improving the Regulatory Framework for Asset Management (AM) at the Local Level”, with the participation of the key stakeholders of the water sector in Albania. The stakeholder meeting was organized in the framework of the project “Regional Capacity Development Network for Water and Sanitation Services (RCDN)”.

The meeting was attended by representatives from water utility members of SHUKALB, Water Regulatory Authority of Albania (WRA), National Agency for Water Supply, Sewerage and Waste Infrastructure (AKUM), the Association of Albanian Municipalities, the Association for Local Autonomy, as well as RCDN – GIZ ORF MMS. The meeting was moderated by Mihallaq Qirjo, Director of the Resource Environmental Center, Albania. [read more](#)

World Water Day, 22 March Is Approaching – Is your Utility Ready to Celebrate?

The celebration of World Water Day (WWD) has become a tradition for SHUKALB and its member water and wastewater utilities, as a unique opportunity to draw attention and create momentum that compels government, civil society, and individuals to take action.

World Water Day is a Program of United Nations, celebrated every year on 22 March, aiming to focus the attention on the importance of freshwater and advocating for the sustainable management of freshwater resources. Each year, World

About SHUKALB

The Water Supply and Sewerage Association of Albania (SHUKALB), which

Water Day highlights a specific aspect of water, and the theme

chosen from UN for this year is “Groundwater - Making the Invisible Visible”.

Groundwater is invisible, but its impact is visible everywhere. Out of sight, under our feet, groundwater is a hidden treasure that enriches our lives. In the driest parts of the world, it may be the only water people have. Almost all of the liquid freshwater in the world is groundwater, supporting drinking water supplies, sanitation systems, farming, industry and ecosystems. [read more](#)

SHUKALB and SHUKOS Organize Successfully the Basic Training on the Water Audit

was established in 2000, is a professional, not-for-profit Association of water supply and sewerage professionals, who wish to improve the management of the Water Supply and Sewerage Sector in Albania, making it efficient, sustainable and effective in accordance with the current laws and regulations in Albania.

On 9 and 10 February 2022, SHUKALB in collaboration with SHUKOS organized successfully, online, the two day Basic Training on the Water Audit for the Water Utilities in Albania and Water Regional Companies in Kosovo, part of the Asset Management Advisory Services to Water Utilities in SEE (SEEAM) Project.

The aim of the training was to train the staff of the utilities in the Platinum Phase on the Water Audit (Balancing) and practice with EDAMS Software. The training was delivered by Nicolas Savva, experts at Hydro-Comp Enterprise. [read more](#)

Training and Capacity Development Programs

SHUKALB Opens the Registrations for the Trainings During 2022!

SHUKALB has already started its Training Program for 2022 as part of which it will provide a series of topics for the management

and performance improvement of water supply and sewerage services. These trainings are available to all water sector professionals, including senior and middle management staff and operators from water supply and sewerage companies, as well as representatives from central and local government institutions. Find more details about registrations for each training, in the below Calendar.

TRAININGS IN MARCH

SUPERVISION

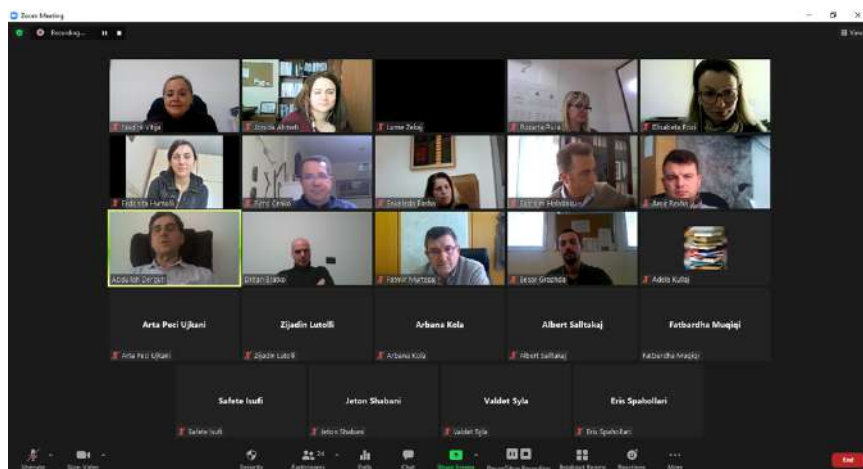

16-17 March 2022, Tirana

This training course emphasizes the role of the supervisor in fulfilling the water supply and sewerage utility mission and objectives. This training course addresses the knowledge and skills that a supervisor must have on planning, workforce coordination and motivation, in order to effectively meeting the objectives. The main objective of the course is to provide to the participants supervision knowledge and techniques to improve the water supply and sewerage utilities performance.

This training course is especially useful for the managers and supervisors of the human resources and public relations department, and supervisors. [read more](#)

SHUKALB and SHUKOS Organize Successfully the Annual Joint Meeting of the Trainers

On 18 February 2022, SHUKALB in collaboration with SHUKOS organized online the Annual Joint Meeting of Trainers. This meeting is a tradition for SHUKALB and SHUKOS Joint Training
